
**Purpose:**

What was the purpose of the study? (p. 658)

What 2 questions were tested in this study? (p. 659)

**Subjects:**

What type of sample was used for this study? (p. 659)
How were the subjects obtained? (p. 659)

How many subjects were used for the study? (Abstract and p. 661)

Demographic Information (p. 661):

How old were the subjects?

What % was female? Male?

What % was White? What other groups were represented?

What % was married? Divorced, separated, or widowed? Single?

What % had a high school degree? What % had attended college or earned a college degree?

What % had been diagnosed with depression and/or anxiety?
What % lived within 25 miles of the World Trade Center?

What % was directly exposed to the attacks? Watched the attacks on TV?

Had no live exposure to the attacks?

Method: (p. 660)

-- What were the subjects asked to do after the 9/11 attacks?

-- How long were the subjects given to answer the prompt?

Measures:

-- What 2 measures (variables) were created for the study? (p. 660)
--4 measures were completed 2 months, 6 months, 12 months, 18 months, and 24 months after 9/11. What were the names of these measures and what did each assess? (Use 1 sentence for each measure) (p. 660)

--7 additional measures were used for this study. What were their names? What did they measure? Be sure to state when each measure was completed when this information is given. (Use no more than 2 sentences for each measure) (p. 660 & 661)
Results:

What was the finding for post-traumatic symptoms? (p. 662)

What was the finding for length of response and physical and mental health outcomes? (p. 662)

Relative to distance from the World Trade Center, which subjects showed the worst health outcome? (p. 662)
What was the finding for demographic characteristics, mental and physical health history, social support, previous trauma history, worldview, and personality characteristics?
(p. 665)

**Conclusion:**

--What conclusions can be drawn from the results of this study? (In no more than 3-4 sentences) (Abstract, pp. 665 & 666)
